Jaishil Shah
Subsystem Introduction Project: Application Development
9/25/2024
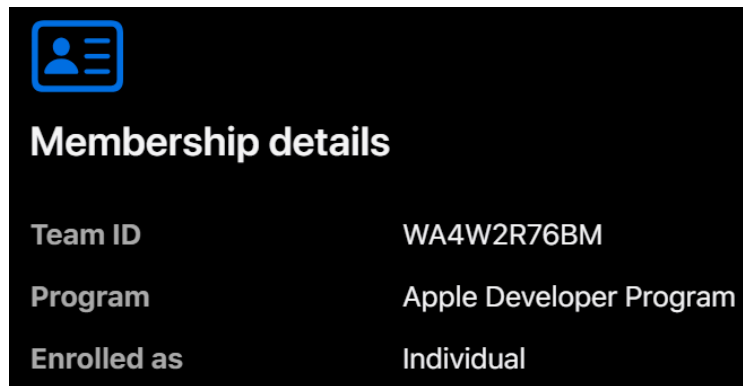

1) The relevant application I used on this project is FlutterFlow. I am deploying my mobile application. It is the software of choice for both my Introduction Project and my Subsystem Integration:

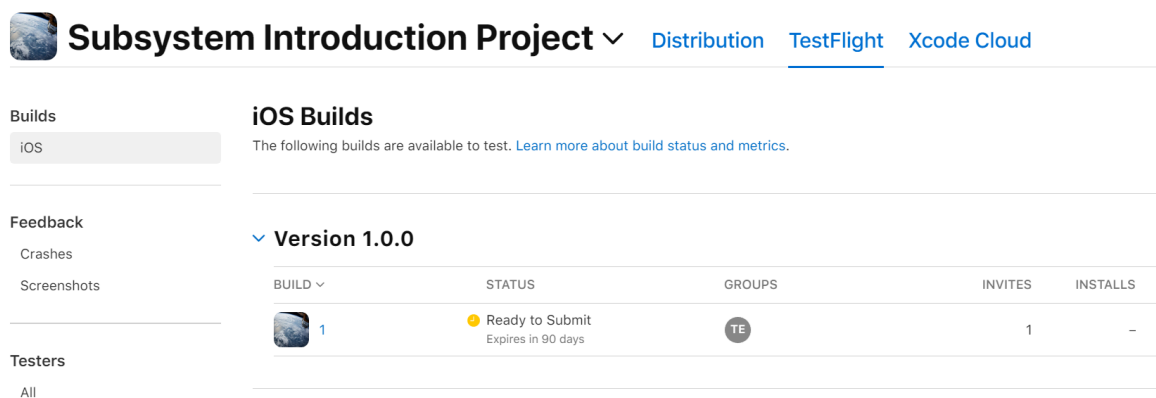

2) Documentation:
   to/do

3) Application Deployment:

Apple Development Account Enrollment

TestFlight Beta Testing Development

2/4) The "Push Button" Application is located in…

Subsystem Introduction Projects/Jaishil Shah/Video Demonstration

… of the GitHub Repository
